

Fixing Compatibility View Settings in Internet Explorer

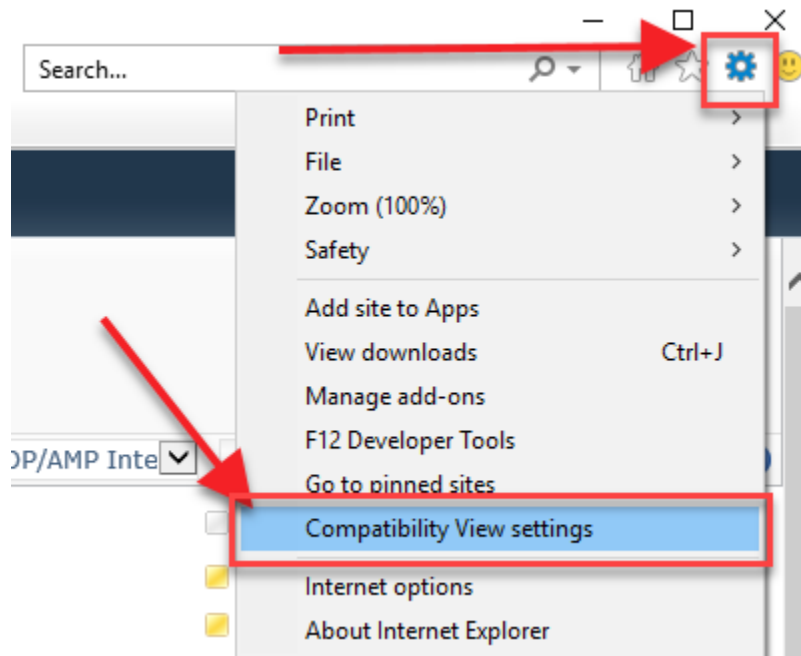

Problem:

EMACCS users might experience display issues in Internet Explorer due to browser Compatibility View Settings.

Solution:

Update the Compatibility View Settings in Internet Explorer as follows:

1. The user should open the “Compatibility View Settings” from the Settings menu of their Internet Explorer browser:

2. Uncheck the checkbox for Display intranet sites in Compatibility View:

Compatibility View Settings

Change Compatibility View Settings

Add this website:

gov.bc.ca

Add

Websites you've added to Compatibility View:

Remove

CHECKBOX
SHOULD BE NOT
BE CHECKED

☐ Display intranet sites in Compatibility View

☐ Use Microsoft compatibility lists
